Comments:I support everything you are doing. We lost over half our Farm to eminent domain laws that were unfair and should be illegal. The power company that took them still has not used the property after 30 years. I believe we need stronger property rights in all respects for surface rights for oil and gas drilling to long wall mining to power and money hungry corporations that take advantage of outdated egislation that was written generations ago Thank you for allowing me to participate in your survey.
